Abstract
Mary-Louise will discuss the organisation, implementation and findings from the World Health Organization First Global Patient Safety Challenge – Clean Care Saves Lives pilot tested in Costa Rica, Italy, Mali, Pakistan and Saudi Arabia. She will discuss the similarities and differences of the findings with other hand hygiene collaborative projects she has worked on in Australia, Iran, Turkey, Vietnam and Indonesia.

Biography
MaryLouise Mc Laws is Professor, Epidemiology in Healthcare Infection and Infectious Diseases Control, at School of Public Health & Community Medicine, UNSW Australia.
